Pensando nisso, criei uma **tabela de cores HTML e CSS** completa com várias opções de cores para utilizar em seu site ou blog. Sempre que precisar utilize essa tabela para encontrar a cor desejada. Na primeira tabela, preta, você encontra **cores** mais escuras iniciando pelo branco e finalizando no preto. Na segunda tabela, você encontra cores mais claras iniciando pela cor branca e finalizando pela cor preta.

Note que em cada campo da tabela de cores tem um código hexadecimal, com 6 caracteres, e outro código com 3. O primeiro código pode ser utilizado tanto em **HTML** quanto em CSS. Já o segundo pode ser usado apenas no CSS.

Se você não conseguir encontrar a cor certa a partir das tabelas acima, dê uma olhada na imagem a seguir:

		FFFFFF	FFCCFF	FF99FF	FF66FF	FF33FF	FF00FF
